

WATER FOR LIFE – SPONSOR A WATER WELL!

We take “water” for granted. Turn the tap water is there! Don't like tap water - buy bottled water! Getting clean drinking water is assumed as our right. Imagine a different world – A world without water! No taps – No bottled water. If you need water you will have to walk 5 or 10 kms to get it. There are places in the world where clean water is only a dream. There are many communities in the world who are deprived of basic necessities of life.

Humanity First brings water to these deprived communities. Humanity First drills water wells, bore holes and installs and repairs hand pumps to provide clean drinking water in remote villages. Humanity First continues to bring water to poor communities in Africa, South East Asia and Central/South America.
